

Miniature ball screws

Smooth running and excellent backdriving with the new SD internal recirculation nut.

- Nominal diameter
8 to 16 mm
- Lead
2 to 5 mm
- Cylindrical nut with threaded end : easy mounting
- Better nut geometry
- Less sensitive to misalignment
- Excellent repeatability : high positioning quality
- Internal recirculation with inserts : smoother running, good backdriving and improved security
- Higher dynamic load capacities than the SH screw (+25%)
- Greatly reduced noise
- Optional safety device (*) :
12x4R - 14x4R - 16x5R
- Optional wipers (*) :
8x2,5R - 10x2R - 12x4R - 16x5R
- Corrosion resistant screw shaft available on request
- Customised nuts with 2 to 6 circuits available for more than 1.000 pieces.

(*) It is not possible to supply safety device and wipers in the same nut.

Technical data

SKF Linear Motion has **three product lines** and a **specialized sales organisation** covering Europe and North America. To supplement the linear product range, Linear Motion also offers an extensive assortment of industrial products. Moreover, the product availability as well as the product application is **provided world-wide by the international SKF Bearing network**. To get any other SKF address all over the world, please contact one of the companies below.
